

**DEPARTMENT OF BOTANY**  
**KALIGANJ GOVERNMENT COLLEGE**

*organizing*

# One Day Seminar on **PLANT BREEDING: METHODS AND FUTURE PROSPECTS**

**ON 25TH JANUARY, 2024**

**11AM ONWARDS**

**VENUE: DEPARTMENT OF BOTANY,  
KALIGANJ GOVT. COLLEGE**

Resource Person :

**Dr. Swati Das (Sur)**  
**Associate Professor,**  
**Nabadwip Vidyasagar College**

## About the Seminar:

Over the years the plant breeders made use of existing natural genetic variations for crop improvement with traditional breeding practices. With the advent of latest tools and technologies plant breeding is still emerging as an important domain of plant science considering the demands in terms of quantity as well as quality of plant products. The Seminar is oriented towards UG Students currently pursuing Botany Honours /Major course. Students and will help the students to have a general overview of conventional breeding practices
